District Councillor Evan's Report

Starting with the Royal British Legion Campaign: Bassetlaw District Council (B.D.C) is supporting the R.B.L. in their campaign for **military compensation to be discounted as income** when calculating means tested welfare benefits, including local benefits.

I know Bassetlaw District Council already discounts military compensation when calculating some local benefits, including Council Tax Support, Housing Benefit and Disabled Facilities Grant. This is in addition to the support the Council provides to Armed Forces Veterans and their families, serving members of the Armed Forces and Reservists, through its commitment to the **Armed Forces Covenant**.

Last year, Bassetlaw District Council was awarded the Gold Award of the Armed Forces Covenant Employer Recognition Scheme – I think everyone should know how supportive the District Council is to veterans and their families.

Moving to Energy: B.D.C. is fortunate in having such a successful energy team, who have led the way in helping residents make their homes more energy efficient and environmentally friendly as part of the latest **Government Funded Home Upgrade Grant scheme**.

Of all the district authorities in Nottinghamshire and a collection of Derbyshire authorities, Bassetlaw topped the tables by upgrading 117 homes. This was the highest number of any participating district, with 66% of these properties reaching energy performance ratings of A–C, **also the largest proportion in Nottinghamshire**.

In addition, Bassetlaw was also the leading district under the scheme for solar panel installations, with 43% of all solar panels in Nottinghamshire being fitted in Bassetlaw.

Warm Homes Scheme: following on from past success, Bassetlaw District Council has been awarded central government funding to help households achieve reduced energy bills and make carbon savings. The funding is made available from the Warm Homes: Local Grants, a scheme launched by the Department of Energy Security and Net Zero (DESNZ) aimed to reduce poverty and aid in reaching the UK's Net Zero target. The scheme involves installing energy efficiency measures and low-carbon heating systems in resident's homes; the Council has been approved to deliver both Bassetlaw and Bolsover's allocation to install home upgrades; The total funding for both Bolsover and Bassetlaw District Councils is £2,519,000.00 over the three-year period.

Investment in Recycling: as you know, a new kerbside glass collection service will be introduced on March 30th, 2026, under the gov. Simpler Recycling scheme; households in Bassetlaw will receive new 180 litre bins in which to place glass, which will be collected every six-weeks. Food waste collections will start in 2027.

B.D.C. Council is making a significant investment in how it collects waste – this includes new bins for glass, new and additional collection vehicles which will lead to a larger fleet of refuse wagons, an app to provide information on bin collections for the public, and necessary improved infrastructure to the Carlton Forest site itself.

This investment is a 'must do', especially when looking to the future and the introduction of food waste collections.

Growth in Bassetlaw

Plans are in place to develop a small modular reactor at the former Cottam coal-fired power station designed to provide power to new, advanced data systems on site. By transforming the site, the project could create thousands of high-skilled manufacturing and construction jobs and long-term roles in operations for the community.

The project will help transform the UK's historic "Megawatt Valley" sites into a hub for clean energy and new investment opportunities; feasibility studies and early-stage investment discussions are now underway, and

Minutes of the meeting held 13th October 2025 Signed: R Jones

Date: 24/11/2025

the project is due to come online this decade to form part of the Trent Valley Supercluster, which includes the S.T.E.P. project at West Burton.
